Re: Annual Report of Hazardous Waste Exports for 2011  
EPA Notice ID: 003493/9E/11

Dear Mr. Heiss,

The enclosed Annual Report of Hazardous Waste Exports for 2011 is submitted as required by 40 CFR 262.56. This report summarizes the type, quantity, and ultimate destination of the "hazardous waste" exported last year. The "hazardous waste" in this case is kettle dross, malformed or damaged plates, scrap grid metal, and other lead-bearing scrap from the manufacture of lead-acid batteries sent for reclamation. Please note that under federal regulations, the referenced material would be exempt from classification as a hazardous waste under 40 CFR 261.2(c)(3), as a material being reclaimed. However, the Georgia Environmental Protection Division's Administrative Law Judge handed down a decision that, in essence, requires that by-products exhibiting a hazardous characteristic be classified and managed as hazardous waste until the material actually enters the reclamation process, rather than at the point the material is destined for reclamation, as discussed in the preamble to the original federal regulation.

Please let me know if you have any questions or need additional information.

Sincerely,

Exide Technologies

Douglas W. Emerich  
EHS Manager

# Annual Report of Hazardous Waste Exports for 2011

## 1. Primary Exporter (Consignor)

Name: Exide Technologies  
Site and Mailing Address: 3639 Joy Road  
Columbus, Georgia 31906  
EPA ID No.: GAD 070 330 576

## 2. Consignee

Name: La Corporation Newalta  
Site and Mailing Address: 1200 Rue Garnier  
Ville Ste-Catherine, Quebec  
J5C 1B4

## 3. Transporters

Transport Sylvester et Forget, Inc  
320 Route 201  
St Stanislas de Vostva, Québec J0S 1W0  
(800) 665-6839  
EPA ID No : MIK 143 526 901

## 4. Wastes and Shipping Information

1. Description of Waste: Recyclable lead-bearing scrap from the manufacture of lead-acid batteries  
EPA hazardous waste numbers: D008, D006  
US DOT proper shipping name, hazard class and ID number:

Waste Corrosive Solid, acidic, inorganic, n.o.s., (sulfuric acid), 8, UN3260, PGII  
RQ (D008, D006)

Number of Shipments during the Calendar Year: 1  
Total Quantity of this Waste Shipped: 7,972, lbs.

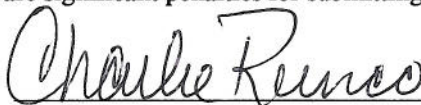

## 6. Waste Minimization Statement

Submitted with Biennial Report pursuant to 40 CFR 262.41.

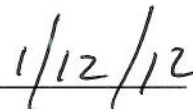

## 7. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.
